PROFILE

I am passionate about frontend web development, eager to bring innovative and user-friendly designs to life. My dedication to continuously learning and enhancing my skills drives me to excel in every project I undertake. I am committed to delivering high-quality work and am excited to contribute to impactful and creative projects.

WORK EXPERIENCE

Frontend web developer intern

Self-initiated project

- Developed and maintained responsive websites using HTML, CSS, and JavaScript.
- Collaborated with peers on GitHub to manage code versions and track project progress.
- Conducted usability testing to ensure optimal user experience and accessibility.

Web Development Bootcamp Participant

ALX (May 27 - October 12)

- Working on an intensive bootcamp covering HTML, CSS, JavaScript, React, Git, and Bootstrap.
- Working on building various projects, including a responsive multi-page website and a dynamic web application.
- Gained hands-on experience in front-end development and UI/UX design.
- Received positive feedback for creativity, problem-solving skills, and teamwork.

University Projects

- Led the development of a web application for a student project, incorporating interactive features and responsive design.
- Demonstrated proficiency in front-end technologies and project management.
- Demonstrated proficiency in front-end technologies and project management.
